

Layflat Hose Carts

Various designs to suit specialist use for irrigation, emergency services, water utilities, trade counter storage, environmental and industrial applications.

Built to accommodate specific widths and lengths of hose or adjustable over a range of widths. Available for single or several hoses. With or without detachable drum for easy hose coil installation. Hose connections can be accommodated. Available with a range of handle designs and wheel combinations to suit level ground or rough terrain. Standard models come with a 'high visibility' epoxy powder paint finish.

Other materials and paint finishes available

Patent Pending
